8 Different Programs

Fine dish cleaning performance with one of the eight programs: intensive, eco, glass, 90min, rapid, auto, extra drying, power wash.

Wortex Wash

Placed at the bottom of the tub our innovation vortex wash creates an intensive area in the dishwasher. Greasy or baked-on pots can now be cleaned more deeply, without being worried about your delicate glasses placed in the upper basket.

Aqua Vault

To be water conscious a smart water management system is applied to reduce water consumption by more than 35% while still offering the same great cleaning result.

Multiple Cleaning

Freestanding dishwasher features strategically-designed baskets and racks for more flexibility and smarter placement in the loading area. With the benefit of two independent drawers that both have enough headroom to fit large items.

Optional Turbo Drying

The ambient temperature in the kitchen is usually lower than the one in the dishwasher. Turbo drying speeds up air exchange between inside and outside to achieve an excellent result and comfortable touch temperature.

Auto Open Door

At the end of the program, the door of the dishwasher opens automatically and leaves a small gap to vent out the humid air. This allows fresh air to reach the dish-ware and dry the dishes completely.

Zone Wash

Upper, lower, or both, zone wash provides targeted cleaning in the selected wash zone, so, no more waiting to get a full dishwasher load to run cycle.

Technical Specifications

Noise Level	44 dB
Delay Start	1-24 h
Programs	8
Water Consumption	11 l
Dimensions (WxDxH)	598x600x845 mm

Innowash Plus

The breakthrough innovative spray arm uses two separate rotating axes to maximize water spray to all corners of the dishwasher and saves up to 15% time. Exceptional cleaning results in a faster and quieter way.
